## HIRE A VOCATIONAL PROFESSIONAL

The Ontario Society of VRA Canada (VRA Ontario) is comprised of skilled Vocational Professionals from multi-disciplinary backgrounds. We are dedicated to delivering timely and effective services to individuals who face barriers to employment, transitioning them to satisfying outcomes.

We believe that all persons should have the right and opportunity to participate in society, fully and with dignity. This includes being able to establish and maintain a quality of life, independence and full inclusion within the community.

We are dedicated to ensuring that the public receives the highest quality of care, and are committed to promoting excellence through the application of our professional standards of practice and conduct, demonstrating our accountability to all our stakeholders.

As the recognized experts in the provision of vocational and prevocational services, we act as the liaison between clients, employers and other professionals, while helping navigate the complicated medical, legal and legislative waters required to achieve maximum quality of life and independence for our clients.

VRA Ontario members maintain the highest standards of professional and technical competency. They continue to advance their knowledge through ongoing education and professional development within their own discipline and through the shared 'best practices' of related disciplines. Our goal is to foster trans-disciplinary collaboration, to improve client care and to maintain the highest level of professional competency.

Many of our members have distinguished themselves by achieving accreditations such as the RRP (Registered Rehabilitation Professional) RVP (Registered Vocational Professional) or RCSS (Registered Community Support Specialists). These accreditations require applicants to successfully demonstrate their abilities through related education, workplace experience and continuous educational advancement.

Knowledge and experience, coupled with dignity and compassion, form the foundation upon which our association has been built.
